Platform of the Democracy of the United States.

The following is a correct copy of the Resolutions, or Platform, adopted by a unanimous vote of the National Democratic Convention at Chicago, on the 30th day of August, 1864:

THE RESOLUTIONS.

THE RESOLUTIONS.

Resolved, That in the future, as in the past, we will adhere with unswerving fidelity to the Union under the Constitution as the only solid foundation of our strength, security and happiness as a people, and as a framework of government equally conductive to the welfare and prosperity of all the States, both Northern and Southern.

Resolved, That this Convention does explicitly declare, as the sense of the American people, that after four years of failure to restore the Union by the experiment of war, during which, under the pretence of a military necessity or war power higher than the Constitution, the Constitution itself has been disregarded in every part, and public liberty and private right alike trodden down and the material prosperity of the country essentially impaired—justice, humanity, liberty, and the public welfare demand that immediate efforts be made for a cessation of hostilities, with a view to an ultimate convention of the States, or other peaceable means, to the end that at the earliest practicable moment peace may be restored on the basis of the Federal Union of the States.

Resolved, That the direct interference of the military authorities of the United States in the recent elections held in Kentucky, Maryland, Missouri, and Delaware, was a shameful violation of the Constitution; and a repetition of such nots in the approaching election will be held as revolutionary, and resisted with all the means and power under our control.

sisted with all the means and power under our conrol.

Resolved, That the aim and object of the Democratic party is to preserve the Federal Union and the
rights of the States unimpaired; and they hereby
declare that they consider that the administrative
usurpation of extraordinary and dangerous powers
not granted by the Constitution; the subversion of
the civil by military law in States not in insurrection; the arbitrary military acrest, imprisonment,
trial and sentence of American citizens in States
where civil law exists in full force; the suppression
of freedom of speech and of the press; the denial of
the right of asylum; the open and avowed disregard
of State rights; the employment of unusual test
outles; and the interference with and denial of the
right of the people to bear arms in their defense, is
calculated to prevent a restoration of the Union, and
the perpetuation of a government deriving its just
powers from the consent of the governed.

the perpetuation of a government deriving its just powers from the consent of the governed.

Resolved, That the stamful disregard of the Administration to its duty, in respect to our fellow-citizens who now are, and long have been, prisoners of war in a suffering condition, deserves the severest reprobation on the score alike of public policy and

reproduction on the score alike of public policy and common humanity.

Resolved. That the sympathy of the Democratic party is heartily and carnestly extended to the soldiery of our amy, and sailors of our navy, who are and have been, in the field and on the sea, under the flag of their country; and, in the event of its attaining power, they will recive all the care, protection, and regard that the brave soldiers and sailors of the Republic have so nobly carned.

McClellan's Platform.

ORANGE, NEW JERSEY, Sept. 8. GENTLEMEN: I have the honor to acknowledge the receipt of your letter informing me of my nomination by the Democratic National Convention, recently assembled at Chicago, as their candidate at the next election for President of the United States.

It is unnecessary for me to say to you that the nomination comes to me unsought.

I am happy to know that when the nomination was made the record of my public life was kept in view.

The effect of long and varied sevice in the army, during war and peace, has been to strengthen and make indelitible in my mind and heart the love and reverence for the Constitution, laws and flag of our country impressed upon me in early youth.

These feelings have thus far guided the course of my life, and must continue to do so to its end.

maife, and must continue to do so to its end.

The existence of more than one government over
the region which once owned our flag is incompatible with the peace, the power, and the happiness of

the region which once owned our flag is incompatible with the peace, the power, and the happiness of the people.

The preservation of our Union was the sole avowed object for which the war was commenced. It should have been conducted for that object only, and in accordance with those principles which I took occamon to declare when in active service.

Thus conducted, the work of reconciliation would have been casy, and we might have reaped the beneat of our many victories on land and sea.

The Union was originally formed by the exercise of a spirit of conciliation and compromise. To restore and preserve it, the same spirit must prevail in our councils, and in the hearts of the people.

The re-establishment of the Union in all its integrity is, and must continue to be, the indispensable condition in any actilement. So soon as it is clear, or even probable, that our present adversaries are ready for peace, upon the basis of the Union, we should exhaust all the resources of statesmanship practiced by civilized nations, and taught by the traditions of the American people, consistent with the honor and interests of the country, to secure such peace, re-establish the Union, and guarantee for the future the constitutional rights of every Stale. The Union is the one condition of peace—we ask us more.

Let me add what I doubt not was, although unexpressed, the sentiment of the Convention, as it is of the people they regressed, that when any one State is willing to return to the Union, it should be received at once, with a full guarantee of all its constitutional rights.

If a frank, carnest and persistent effort to obtain.

of at once, with a full guarantee of all its consistent flows it for all its consistent effort to obtain these objects should fail, the responsibility for ulterfor consequences will fall upon those who remain in arms arminst the Union. But the Union must be preserved at all hazards.

I could not look in the face my gallant comrades of the army and navy who have survived so many bloody battles, and tell them that their labors and the sacrine of so many of our slain and wounded brethren had been in vain; that we had abandoned that Union for which we have so often periled our lives.

that Union for which we have so often period our A vast majority of our people, whether in the army an I navy or at home, would, as I would, hail with unbounded joy the permanent restoration of peace, en the basis of the Union under the Constitution, without the effusion of another drop of blood. But no peace can be permanent without Union.

As to the other subjects presented in the resolutions of the convention, I need only say that I should seek in the Constitution of the United States, and the laws framed in accordance therewith, the rule of my duty, and the limitations of executive power; and cavor to restore economy in public expenditure, re-outablish the supremacy of law, and, by the assertion of a more vigorous nationality, resume our commanding position among the nations of the earth.

the condition of our fluences, the depreciation of paper money, and the burdens thereby imposed abor and capital, show the necessity of a return ound financial system; whilst the rights of cities and the rights of states, and the binding autity of law over President, army, and people, are sets of not less vital importance in war than in

CONSTITUTION LIFE SYRUP

We shall most readily suppress this rebellion and restore the authority of the Government by religiously respecting the Constitutional rights of all. I know that I express the feelings and opinions of the President when I say that we are fighting only to preserve the Integrity of the Union and the Constitutional authority of the General Government.

The inhabitants of Kentucky may rely upon it that their domestic dustinations will in no manner be integrated with and that theresty received at one hand.

their domestic institutions will in no manner be in-terfered with, and that they will receive at our hands every Constitutional protection. I have only to re-peat that you will, in all respects, carefully regard the local institutions of the region in which you command, allowing nothing but the dictates of mili-tary necessity to cause you to depart from the spirit of these instructions,—[McClellan To Buell.

Constitution Life Syrup A REVOLUTION IN MEDICINE.

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no paralbe at the present day.

Our medicine is peculiar; by it the neat of any disease is directly reached, and the equilibrium restored.

Those who have suffered long from painful and obstinate diseases; Those who have vainly sought relief frem advertised medicines; Those who cannot be cured by other physicians—

Are Invited to Use Constitution Life

During the past five years we have contended with obstacles and overcome opposition as herculean as were ever encountered by any reformers.

RAPIDITY OF CURE. Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." of Nature."

This is our reply: In health, the body, like a well balanced scale, is in a state of Equilibrium. But when, from any cause, down goes one side of the scales, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

It is not a MINERAL WATER. It is from experience that CONSTITUTION WATER has emenated, and we now any let no man-doubt, when a single bottle has been known to cure diseases which the best medical talent in the country failed to relieve. A remedy possessing the virtues of Constitution Water cannot be classed under "quack" preparations, as it is now used by the most scientific practitioners in the city. It is only second-class physicians that cry down popular remedies, while the better skilled make use of every means to accomplish a cure; and the success of the physician increases as his knowledge of different remedies enables him to produce a cure, while others fail in the attempt.—Science is satisfied with the truth.

Give Constitution Water a fair trial—we mean you who are under some specialists. **BOOK & JOB PRINTING**

Give Constitution Water a fair trial—we mean you who are under some SPECIALST'S care from year to year, and we particularly allude to ladies who are constantly reserting to LOCAL TREATMENT, and all sorts of local applications for diseases, with as much chance of success as there would be from local applications to the throat for diseases of the brain. We have always been careful to use language in our circular that could not shock the most delicate organization, but we receive many communications from persons for whom Constitution Water is adapted, and of whose disease no mention has been made, that we have come to the conclusion that if the remedy is capable of producing a cure, no matter what the disease may be, it should be made known. The medicine is put up for the public and there should be no exceptions.

DIABETES

Is a disease of the stomach and liver, acting through the kidneys, and is without doubt, the most obstinate disease, except Consumption, that affects the human constitution. We have no space for discussing causes, but will state that the effect of the disease is the conversion of the food) into sugar, which stimulates the kidneys to an excessive secretion of water. Many persons suffer from this disease who are ignorant of it; that is, they pass large quantities during the day, and are obliged to get up from one to fifteen or twenty times during the night. No notice is taken of it until their attention is called to the large discharge of water, and often when it is so far advanced as to be beyond the control of ordinary remedies. Another symptom is the great thirst, which, when the disease is fully established, is intolerable—the patient drinks constantly without being satisfied; also dryness of the mouth, cracking of the lips, asweet breath, in the more advances cases, and finally loss of appetite, emeciation, and the patient gradually sinks from exhaustion.

Constitution Water is, without doubt, the only known remedy for disobets, and we have as much confidence that it is a specific as we have that opium will produce sleep, and truthfully say that it has cured every case in which it has been used.

Erysipelas — General Debility — Purify the Blood.

J. From Dr. Robt. Sawin, Houston St., N. Y.
DR. AVER: I seldom fail to remove Eruptions and Scrofatons Sores by the persevering use of your Sansarpatilla, and I have just now cured an attack of Malignant Ergsipelas with it. No alterative we possess comust the Sansarpatilla you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Chio.

"For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your Sansarpanilla. Took two bottles, and some of your ITLLS. Together they have ented me. I am now as well and sound as any body. Being in a public place, my case is known to everybody in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcoaste, C. W., a leading member of the Canadiam Parliament.

Scald Head, Sore Eyes.

From Harry Sickler, Esq., the able editor of the Timekhanneck hemocrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forchead. They rapidly spread until they formed a louthsome and virulent sore, which covered his face, and actually binded his eyes for some days. A skilful physician applied hisrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing clse we had any hope from, we began giving your Sansarahullla, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the recond. The child's eyelashes, which had come out, grew again, and he is now as 1—thy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

Syphilis and Mercurial Disease. From Dr. Hiram Stoat, of St. Louis, Missouri
"I find your Sansapantilla a more effectual
remedy for the secondary symptoms of Syphilis,
and for syphilite disease than any other we pussess.
The profession are indebted to you for some of the
best medicines we have."

From A. J. French, M. D., an eminent physician of From A. J. French, M. D., an emirant paysicion of Laurence, Mass., who is a prominent member of the Legislature of Messachusetts, "Dn. Ayka — My dear Sir: I have found your Sarsapanilla an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mo Chee S. Fan Liero of New Brunsuck, N. J.

Mr. Chas S. Van Liew, of New Brunsuck, N. J. had dreadful ulcers on his legs, caused by the abust of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA release him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him. Leucorrhœa, Whites, Female Weakness, are generally produced by internal Scrofulous Ulcer-ation, and are very often cored by the alterative effect of this Sarsaragilla. Some cases require, however, in aid of the Sarsapanilla, the shifted

application of local remedies. application of local remedies.

From the teelt-known and widely-celebrated Dr. Jacob Morrill. of Uncionati.

"I have found your Sansarannia. In excellent alterative in diseases of females. Many cases of irregularity, Leucorrhona, Internal Ulcenation, and local debility, arising from the scrotklous diathesis, have yielded to it, and there are few that do not, when its effect is properly nided by local treatment. A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Lencorrhors of long standing, by two bottles of your Sansapanilla." Rheumatism, Gout, Liver Complaint, Dyspepaia Heart Disease, Neuralgia, when caused by Scrafula in the system, are rapidly cured by this Ext. Sassapanilla.
